

# AVIARY FOR LAYERS

A REVOLUTIONARY CONCEPT IN MULTI-TIER AVIARY SYSTEMS

AVIARY SYSTEM WITH INTEGRATED NESTBOXES

AVIARY SYSTEM WITH SEPARATED AVIARY- AND NESTBOXES

*The modern aviary system according to the EU-directives and local regulations*

## Aviary system KVOBEL is different. Why?

- It is designed by farmers to be used by farmers.
- Easy bird management is a priority.
- Open system making it better to see and manage the hens.
- A simple support system with very little of the structure fixed to the floor – meaning easy cleaning.
- Lighting available on all levels to minimize floor eggs.
- All necessary perching provided within the system.
- Available with plastic or wire slatted platforms.
- Choice of belt numbers and levels.
- Variable system allow effective installation according to building dimensions.
- Aviary system with integrated or separated nest boxes.
